

## Environmental Policy

B&E International (Pty) Ltd is an Industry Leader and Partner of Choice to the Mining and Construction industries, offering premium products and integrated crushing, mining and mineral processing solutions, made possible by a culture of excellence and committed to ensure sustainability and in line with this, minimise our impact on the environment. B&E International will ensure that the company will adhere to any Environmental legislation were it conducts its business.

### **It is the policy of B&E International (Pty) Ltd**

- Identify its significant environmental aspects and put in control mechanisms to mitigate their affects;
- Minimise the impact on the environment of its activities, prevent pollution and continually improve its awareness towards a positive mind-set aiming to minimise its effect on the environmental.
- Implement systems and procedures that ensure the compliance with all the relevant legislation and legislative body relating to the management of environment in the work place.
- Implement systems to ensure the protection of the environment, such as prevention of pollution, reuse of reusable resources, climate change mitigation adaption or protection of biodiversity and ecosystems.
- Promote environment by conserving energy, materials and resources, minimise consumption and managing waste.
- Provide environment awareness and training on environmental aspects of our operations.
- Add environmental issues in our annual reports which will be reviewed and recommendations will be discussed to ensure elimination of reported issues.
- Objectives and targets to be set to ensure the monitoring of our environmental performance.
- This policy will be communicated throughout our company, with our sub-contractors, service providers and all parties interested.
